INTRODUCTION

ABOUT US:

Bymer Elastomers, an ISO 9001: 2000 company, is the leading rubber products manufacturer in Nasik. Along with our group companies, Blaze Enterprise and Blaze Rubbers, we produce moulded, extruded and metal bonded rubber products and hoses. We supply to around 50 customers (both Indian and Overseas) belonging to a wide variety of industries like automobile, aerospace, switchgear, chemical etc. The group's turn over for Financial Year 2005 – 2006 was Rs 2.65 Crore. We are committed to supply quality products to our customers to their desired specifications and within schedule.

NEW DEVELOPMENTS:

We are also active in new product development like the recently developed LPG cylinder rubber hose. The product conforms to IS 9573 Type – IV norms and is approved by the Bureau of Indian Standards. We are in the process of getting product approval from LERC.

We have also developed polymeric insulators for Crompton Greaves Ltd.

GROUP MANAGEMENT

CEO:

Our CEO Mr. Yazdi Patel is a qualified rubber technologist with B.Sc. in Rubber Technology from Mumbai University and degree from Plastics and Rubber Institute, London. He has over 35 years of experience in the manufacturing of rubber products. All development activities are initiated and overseen by him.

GENERAL MANAGER:

Our General Manager, Mr. Ruzbeh Patel, a B.Sc. graduate, has been with the group companies for 20 years. He handles all techno-commercial aspects like marketing, procurement etc.

PRODUCTION MANAGERS:

The Production In-charge (Hoses), Mr. Bacchhav also has extensive experience in the rubber industry having worked with Cosmos India Rubber Works, Nasik, as Works Manager for 25 years.

The Production and Development In-charge (Rubber moulded components) Mr. Kishore Patil is a graduate, and has done his DPRI from Mumbai. He has 12 years of experience in the rubber industry.

STAFF AND WORKERS:

Our 15 staff personnel and 40 workers strive towards ensuring total customer satisfaction. Our workers are multi-skilled, have an in-depth understanding of quality aspects, and are trained to conduct autonomous maintenance on the machines. They undergo frequent quality and productivity training programs.
